

8/8/2020

Dear Residents and Family Members,

I am sorry to report that one of our employees tested positive for COVID-19. This is based on a lab report result that we received this morning. The employee was not experiencing symptoms. The employee was notified and will be quarantined at home for 14 days. The NYSDOH was additionally notified. Unfortunately, the positive result will delay visitation. Please check the website and group email regularly this week for any changes or updates.

Patricia Ludington, RN

Administrator
