

COVID-19 UPDATE

11-22-2022—Positive Staff

Dear Residents and Family Members:

After updating this website yesterday, we identified another staff person testing positive for Covid-19. That employee is now isolating at home, and the case was reported to the NYS and local Health Departments. The rest of our staff is busy providing supportive care to make our residents with RSV more comfortable, as most are experiencing symptoms consistent with an upper respiratory tract infection.

You probably don't need a reminder, but Thursday is Thanksgiving! If you are planning to join your loved one for our special holiday meal, please reserve your luncheon spot with the receptionist as soon as possible—where else can you secure a delicious meal for only \$10 (same price as last year--inflation is taking a holiday at LCC!) The meal will be served in the Adult Day Health Service area, beginning at Noon. Bring your holiday mask, as well as proof of a negative Covid test, as they are both still necessary whenever you are inside the building.

As the gift giving season approaches, give your loved one the gift that keeps on giving--protection from respiratory viruses! Stay up to date with your vaccinations and wear a mask when you are unable to physically distance from others.

Hopefully, this will be our last posting before Thursday, so let me take this opportunity to wish our LCC families and friends a very Happy and Healthy Thanksgiving! Please be well and safe.
