As many of you are aware we experienced a loss of hot water at the facility early last week. The Water heater needed to be replaced and has been installed and functional since Thursday 2/26/2026. With the new water system installed hot water has been restored to the facility, we are currently making the necessary adjustments to the system to ensure that the hot water is consistent throughout the facility. Please notify the facility with any concerns or questions.

We thank you all for your patience and understanding while we make the necessary adjustments to our new system to ensure its full functionality and consistency.

Thank you,  
Megan Holton, Administrator
