

LUTHERAN CARE CENTER

August 23, 2023—Covid Positive Staff

Dear Residents and Family Members:

As the Summer draws to a close, I am discouraged that we can't say the same thing about Covid-19! CDC and the NYS DOH, as well as all the news outlets, are reporting that there is, once again, an uptick in cases. The culprit seems to be a new variant, because as we know, viruses mutate. On the bright side, however, there is no evidence currently of an increase in transmissibility, symptoms, or likelihood of causing severe illness.

Today, we identified two Covid positive staff members who are now isolating at home as per protocol. The NYS and local Departments of Health have been notified, and we will adhere to the most current guidance on contact tracing.

As always, if you are feeling unwell, or if you have any of the symptoms of a respiratory illness, I urge you not to visit the facility. If you want to stay connected to your loved ones, please consider taking advantage of our virtual visitation options. If you have any questions, please contact your nurse manager or our social workers for more information and check this site for general updates.

Be safe and be well.

Pat Ludington, RN
Administrator
